EXPERIENCE

Finrep.ai <i>Product Management Intern (Strategy & Analytics)</i> - Joined as Finrep's first PM intern; helped scale from \$0 to \$100K ARR in 9 months owning activation, retention, and feature scoping across the fintech product used daily by SEC reporting and technical accounting teams. - Managed Mixpanel + Metabase setup from scratch across 7 modules, ran session replay reviews to surface activation gaps the team was missing, and shipped automations that halved analytics turnaround and unblocked the team's shipping cadence. - Scoped, designed, and shipped the ASC Codification Library end-to-end – a searchable in-product reference for 35,000+ FASB standards that let a key customer fully migrate off Intelligize/LexisNexis and consolidate their workflow.	Aug 2025 – Present Remote, India
Tryo <i>Founder's Office Intern</i> - Partnered with 8+ fast fashion brands including The Souled Store, The Bear House, Bewakoof, and Burger Bae, building long-term relationships that translated into sourcing wins and drove growth in the key apparel segment of our marketplace. - Drove daily order growth through offline marketing – partnered with Swish/Blinkit to distribute pamphlets inside delivery bags, reducing CAC by 40%, and designed referral screens that secured 10% referred customers. - Identified the supply-side gaps killing AOV in apparel by combining customer interviews with order-data analysis, then turned the findings into a sourcing roadmap the founders shipped – closing the demand gaps and lifting AOV across the category.	May 2025 – Jul 2025 Bengaluru, India

PROJECTS

COOX Geo-Blocking Strategy – 1st Prize, Tech GC 2026 IIT Roorkee x COOX - Analyzed 546 non-serviceable bookings across 21 cities for COOX (chef-at-home marketplace), surfacing that Bengaluru, Pune, and Hyderabad drove the majority of unfulfillable orders – each leaking revenue, processing costs, and customer trust. - Built a city-level geospatial clustering pipeline (Python + DBSCAN) to extract 72 actionable blocking zones, then delivered a tiered geo-fencing recommendation projected to save INR 18.1L annually plus INR 1.5L/month in recovered fees.	Apr 2025
Swaps Co-Founder, College Merchandise Brand Co-founded and scaled Swaps, a custom merchandise brand for college clubs, generating INR 1 lakh+ in revenue within 6 months through strategic collaborations and end-to-end product delivery across campuses. - Owned full-stack operations spanning design conceptualization, vendor negotiations, production oversight, budgeting, marketing, and client acquisition, delivering consistent quality across orders shipped to college clubs.	Dec 2024 – Present
Finrep Skills & Context Infrastructure Composable AI Workflow System - Designed a composable Claude Skills framework with explicit interface contracts and staged pipelines, now powering benchmarking, grid reporting, and session analysis workflows across the Finrep PM team. - Built Finrep OS, a context-retrieval layer that turned unstructured customer transcripts and session data into queryable infrastructure, enabling senior PMs to compose new analyses without touching core logic.	2025 – Present

POSITIONS OF RESPONSIBILITY & EXTRA-CURRICULARS

Head of PR, Hi-Res <i>E-Summit, IIT Roorkee</i> - Established strategic relationships with partner colleges, ran high-impact PR campaigns (reaching 10K+ students across India), and developed formalized MoUs, securing 300+ participants within 15 days pre-event. Secured 14+ industry speakers (Adobe, Zomato, IBM) and 10+ partner college collaborations, anchored by a flagship design-a-thon that drove core participation across the multi-event fest at IIT Roorkee.	Jan 2025 – Feb 2025 Roorkee, India
